

## Semi - Rigid Aluminum Flexible Hose

Aluminum triple lock flexible ducting is a traditional product with many applications and is available in standard and acoustic varieties.

Its semi - Rigid aluminum formation can be bent into a tight spot where space is limited. The triple lock seam provides an airtight seal and circumference corrugations ensure strength and flexibility.

### Features

Made of aluminum with thickness 0.05mm ~ 0.48mm, Optional 9 Corrugation or 4 Corrugation Max. Air velocity : 30m/s, Max. Operation pressure : 2000pa, Standard length : 2.3m, 3.0m, 4.0m, 6.0m the max is 4.0m; Flame retarding; High elasticity and flexibility. Easily fitted to circular, Oval or Rectangular connectors; Released for No toxic or Poisonous gases. Temp. Range : -25°C to +250°C.

## Economical PVC Flexible Hose For Dust

### Application

- Ideal for Dust, Grinding dust, Wood sawdust and Lint also for Air and Smoke.
- Performs well for Conveying of Dust and Light weight powders.
- Common water supply and Draining.
- Construction, Civil engineering, Farming, Industry and Ship.
- Dust collection from Various machines.
- Air cleaner hose for Vehicles and Heavy equipments.

*Please Order Hose in 3 Meter Increments  
Up To The Full Coil Length of 50 Ft.*

### Features

- Flexible color Gray, Clamp use worm - Drive clamps.
- Light in Weight and High in flexibility.
- The spiral hard cores made of Rigid PVC and it is covered with Soft PVC in order to durable against the inner and Outer pressure.
