

# Trailer Jacks, Cylinder Set

## Trailer - Stabilizing Jacks

Jacks prevent up-ending semi-trailers not connected to tractors, level trailers parked on slopes and prevent landing gear from sinking into soft surfaces. High-strength steel. Flushtype zerk fitting for relubricating Acme screw. With reflective night-visible collar. Meet OSHA regulations when used with wheel chocks.

### Dayton Spin Top Jacks

12" adjustment range. 8" dia. swivel head and 8" dia. semi-pneumatic wheels.

Number	Price ₪	Static Load Capacity (lb.)	Lifting Capacity (Lb.)	Adjustment Range (In.)
2578 G125	—	50,000	—	44 to 51
2579 G125	—	100,000	40,000	39 to 51

### Dayton Medium - Duty Jacks

Extra - wide 6W x 24"L lifting beam aids trailer support. 2 handles assist positioning jack under trailer. 2-way reversible ratchet for adjusting height.

Number	Price ₪	Static Load Capacity (lb.)	Lifting Capacity (Lb.)	Adjustment Range (In.)
2578 G127	—	80,000	40,000	39 1/2 to 51
2579 G128	—	80,000	40,000	39 to 51

## Hydraulic Pumps & Cylinder Sets

Enerpac pump and cylinder sets simplify ordering and ensure that the pump and cylinder you select are properly sized and matched. All sets come with two-speed hand pumps for rapid cylinder advance and improved operator efficiency. 6' Hoses supplied with the sets thread into the pump outlet port and have a coupler on the other end for quick-connect to cylinder. Gauge included with each set.

**Holl-O-Cylinder™** - For pushing and pulling applications. **Solid Plunger Cylinder** - Includes the Rc series cylinder for maximum versatility in use. **Low Height Cylinder** - Ideal for lifting and maintenance applications where space is restricted.
